RATINGS ARE BASED ON THREE CATEGORIES OF PERFORMANCE:

ACADEMIC ACHIEVEMENT

Average scores on state assessments in each grade.

The average is sometimes called the “mean scale score.”

Using the average score ensures that the achievement of all students and disaggregate groups is incorporated into this component of school ratings. (English language arts, math and science)

ACADEMIC GROWTH

Progress students make in their achievement on assessments from one year to the next. Growth is calculated on the following assessments:

- CMAS assessments in English language arts and math
- PSAT and SAT assessments given to high school students
- ACCESS assessment for all students and disaggregate groups who are still learning the English language
