WILL ROGERS COLLEGE MIDDLE SCHOOL

Since 2011, Rogers has been the district's flagship early college academy, and our school focuses on not only on helping students get into college, but also preparing them to successfully graduate with a degree. All students are enrolled in Mastering the Middle Grades, a specialized class focused on helping students cultivate the self-regulatory skills necessary for college and career success.

In addition to academics, Rogers students participate in a wide range of performing arts opportunities, including instrumental, vocal, and visual classes. After 81 years, Rogers athletes and music students finally have a new athletic stadium, which will allow the school to host football, soccer, track, and band competitions. Students at Rogers may also participate in various co-curricular programs such as student Council, E-Sports, and speech and debate. Additionally, After Opps and Tulsa Speech and Debate League have partnered with Rogers to provide students with numerous after school activities at no cost to their families.

“I love the fact that we learn about and celebrate each other’s traditions. When I’m at school, I feel like I’m around a big family.” –Will Rogers College Middle School student

Thank you Tulsa for investing in every child and every school!

Because of you, every child in our district will see, feel, and experience the benefits of the 2021 Bond package. Tulsans have made a five-year \$414 million investment in safe and accessible schools; state-of-the-art educational technology; sustainable student transportation; and rigorous, engaging, and culturally sustaining learning experiences that prepare students for success in college and careers.

At Will Rogers College Middle School, the 2021 Bond for Tulsa Public Schools includes:

- » Major remodeling and expansion of the cafeteria space to include an outdoor covered dining area, creating flexible working space for students throughout the day;
- » Upgrades to the auditorium lighting and sound system, new stage curtains, repainting, and accessibility improvements; and
- » Repairs and upgrades for the HVAC system federally funded by the CARES Act.
