

**Business/Non-Instructional Operations
Asbestos Control**

The Amity Regional School District No. 5 (ARSD) will implement and maintain procedures necessary to comply with the Asbestos Hazard Emergency Response Act of 1986 (AHERA) by adhering to the following guidelines:

1. Use specifically accredited/certified persons to conduct inspections as required on all school buildings for asbestos-containing material.
2. Take appropriate action to control the release of asbestos fibers, upon completion of inspection.
3. Describe corrective steps and long-range maintenance in a management plan, to be made available to all concerned persons and filed with the Department of Public Health and Addiction Services.
4. Post warning(s) on all areas containing asbestos, and send appropriate written notice to parents and employees, apprising them of the conditions.

The ARSD will annually inform parents or guardians, teachers, and employee organizations of the availability of management plans.

Any further information concerning ARSD procedures for asbestos control can be found in the District Office and in each school office.
