

2019 Middle School Boundary Adjustment Process

Advisory Committee Mtg #6

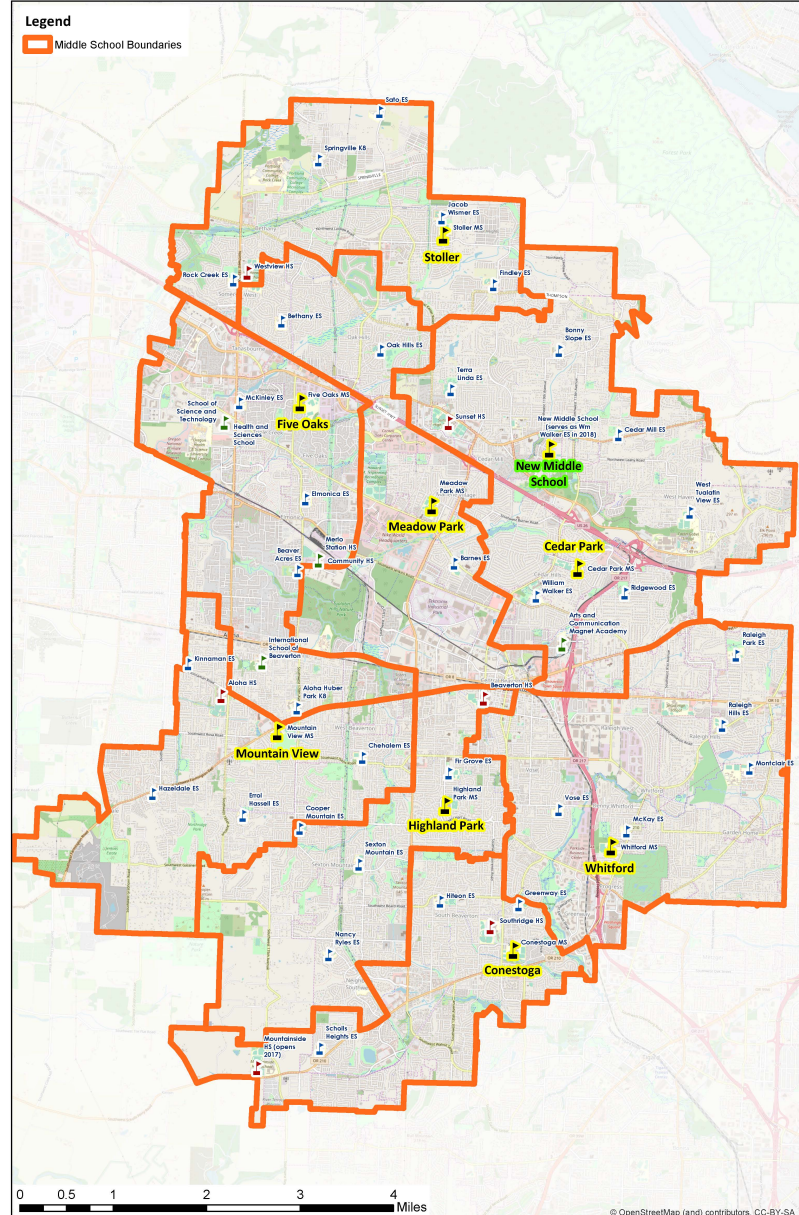

Highland Park Middle School

January 16, 2020

Middle School Boundaries 2018-19 School Year

February 4, 2019

Meeting Expectations

- We assume best intentions - we all want the best for all of our students;
- We listen intently to understand better;
- We are open to considering new ideas;
- We remain open to influence and are not judgmental;
- We will consider all options;
- There are no bad questions;
- Our interactions will be done with respect; and
- We will respect opposing viewpoints.

School Board Objectives for the Boundary Adjustment

1. Create an attendance boundary for the Timberland-area middle school that provides a projected student population sufficient for comprehensive middle school programming.
2. Adjust the attendance boundary for Stoller MS to provide a projected student population of approximately 90% of the permanent capacity of Stoller MS.
3. Review and adjust the attendance boundaries of other middle schools, as needed, to accommodate the new Timberland-area middle school boundary.
4. If warranted, study and recommend minor adjustments to elementary and/or high school attendance boundaries in order to reconcile split feeder patterns or otherwise improve the alignment of attendance boundaries between all school levels.

[Adopted June 24, 2019](#), as per Board Policy JC

Questions and Committee Direction

Policy JC Factors

“The Board recognizes that there are multiple factors to consider in satisfying the objectives of a boundary adjustment. Those factors may include, in no particular priority:

- Student body composition;
- Current and future availability of space at a school;
- Feeder patterns from elementary, middle to high school; and
- Neighborhood proximity and accessibility.”
