BRANDON
HIGH SCHOOL
OF HEALTH
SCIENCES

**Our Vision is to be a premier
academic health care program,
challenging and facilitating high
school students as they prepare for
careers.**

SUGGESTED PLAN OF STUDY

The Brandon High School of Health Science is an academic/career and technical program designed to prepare students who are planning to enter the field of healthcare or pursue a post-secondary degree in the field of healthcare. During the four-year program students will be introduced to various career options and skills required to make a successful transition beyond high school. The curriculum pathways exceed the IHL (Institute of Higher Learning) requirements to ensure that students are academically and socially prepared for success in college. For students who prefer to enter a health care position directly upon their graduation, the School of Health Science will prepare students to enter the workforce as a nursing assistant or athletic trainer.
