Jessica Pond- Parent
Heather Schulz- Vice Principal

Members Absent:
Dan Luthi- Parent
Douglas Wawrzynski- Parent

Welcome and Agenda: Jodi Wetzel – Chair

Business:

1. Netsmartz cost and scheduling
> Approved to add to budget- back on line and we are first on the list to get connected.

2. 3D printer
> ~$1500 for base model
> Closed system is safer and less susceptible to errors (best for kids)
> Model materials & support material are the same in the lower end models but are separate in more advanced machines.
> Most errors occur in the first five minutes
> Require a fair bit of maintenance. Calibrate machine, fans, and belts
> Google- Free STL to find free preprogrammed items for printing. (thingiverse)
> Software for programming is also free.
> Zortrax.com→ software→ z-suite is the programming software
> Matter hackers gives an educational discount of 5% for machines and materials
> Finest resolution is 0.09mm represents the thickness of the layers that print
> 1.75 ABS is the standard construction materials (Ensure the machine takes a generic filament)
> Other brands may have a cost to the software

Voting to spend the money on a 3D printer: Unanimous vote yes
Voters:
Jodi Wetzel- Parent
Natasha Satterthwaite- Parent
Sarah Wawrzynski- Parent
Vicki Gold- Parent
Jessica Pond- Parent
Lori Gillman- Teacher
Racquel Knavel- Teacher
