

## **LONG TERM FACILITIES MAINTENANCE PLAN**

Adopted: October 11, 2004

Revised: March, 2013

Reviewed: November 25, 2019

### **I. PURPOSE**

The ROCORI School District will develop and maintain a ten-year plan for long term facilities maintenance expenditures.

### **II. GENERAL STATEMENTS OF POLICY**

- A. The plan will be developed through administrative planning processes for submission to the School Board for annual review and approval.
- B. The long term facilities maintenance plan will delineate the distribution of long term facilities maintenance aid and levy funds throughout the district and reflect the strategic planning efforts established by the School Board. The plan will include technology, equipment, facility, health and safety, maintenance, and instructional elements.
- C. The long term facilities maintenance plan, as adopted by the School Board, will serve as the district guide to expenditures. Significant departures from the plan will be reported to the School Board by the Superintendent along with the supporting rationale for the proposed changes. Minor revisions will be made at the discretion of the Superintendent.

### **III. IMPLEMENTATION AND MONITORING**

- A. After School Board review, the plan will be submitted to the Minnesota Department of Education.
