

# Number Talk Institute

## Bringing the Standards for Mathematical Practice to Life in Grades 3 – 12

Presented by  
The Mathematics Education Collaborative

Numerical reasoning is the foundation for success in algebra and beyond. Through Number Talks, students develop deep understandings of the number system, number relationships, and operations. Learn how to make Number Talks a vibrant and essential part of your everyday classroom practice.

Teachers will:

- Deepen their mathematical understandings
- Sequence problems to help build important concepts and properties over time
- Experience a learning environment that embodies the Common Core State Standards for Mathematical Practice
- Learn ways to support and challenge all learners without labeling or grouping

Participants will receive a copy of the book ***Making Number Talks Matter*** by Humphreys and Parker

### Your Choice of Two Sessions:

**Session #1: June 11<sup>th</sup>-12<sup>th</sup> (DSD North) or Session #2: July 14<sup>th</sup> – 15<sup>th</sup> (PDC West)**  
**8:30 am – 4:00 pm**

**Two-day Workshop Fee:** Davis School District – No Cost + \$200 Stipend, Non-DSD - \$325/educator

**To Register:** <https://bit.ly/2R96BJ1>

**For more information, contact Lindsey Henderson, [lhenderson@dsdmail.net](mailto:lhenderson@dsdmail.net)**

*1.0 USBE Credits are available upon successful attendance to one of the two sessions and completion of a reflection.*
