Boarding Life

Boarding provides students with an holistic education, where they can develop their personalities and learn from one another in a secure all-inclusive environment.

The boarding day begins with breakfast in the College's historic dining hall before joining the day boys for a normal school day. Housemothers, a vital part of boarding life for our Junior boarders, ensure that boys are ready for the day ahead. At the end of the school day our boarders take part in the many after school clubs and enjoy the vast array of facilities on their doorstep.

Prep takes place before and after dinner allowing all pupils extensive structured time for study. Early evening involves a variety of organised activities before supper and lights out. An extensive weekend activity programme also ensures that pupils are occupied and busy throughout their 'down time', making the most of the College's extensive Campus.

Boarding Family

There are three vertical Houses in our boarding department, each with a dedicated Housemaster/mistress. These individuals are supported by an experienced and dedicated team of boarding staff. Every member of the boarding staff understands the nuances of life in boarding and as such provide the very best of care and support to the pupils. We are a tight team, and our staff make boarding at Campbell a unique and rewarding experience.
