

Preschool Registration Guidelines for Children in the Town of Wolcott

Registration opens on February 1, for 2019-2020 preschool year. The Wolcott Town School Preschool is no longer an option but there are other pre-qualified programs available within the Lamoille Valley area. These preschools have limited slots, with some programs giving preference to 4 year olds. Early submission of your registration increase the likelihood of receiving a slot in the program of your choice. In order to register you must provide child's proof of residency, child's current and updated immunizations or exemption form, and child's birth certificate.

Parents/guardians who seek a pre-qualified program need to contact that program as well as register at Wolcott Elementary 472-6551.

The full list of pre-qualified providers is available at <http://www.brightfutures.dcf.state.vt.us>

Under Act 166, children who are 3 or 4 by September 1, 2019 are entitled to 10 hours/35 weeks of no-cost-to-you preschool education that is provided in a prequalified program.

For further information please contact Wolcott Elementary School at 472-6551.
