

## Community Council Meeting 1-15-2020

Discussed School Report Card- reviewed FAQ with the council, discussed factors that make the student grade. Answered questions concerning reading, math, science, and attendance.

Reviewed progress towards current goals-

- Reading- 80% proficient in oral reading fluency
- \* MOY currently happening, data will be reviewed
- Increase Teacher capacity: book study, The Behavior Code and SEL
- \* Well under way
- Increase median growth of below proficient students in math
- \* PLC teams meet regularly to analyze data and make adjustments to instruction
- \*iReady and Imagine Math programs used to support individual learning and growth

Discussed ideas for School Improvement Plan goals for the coming school year. Some ideas include:

- SEL- analyzing needs and making goals to support SEL focus
- Reading Tutors- has been a great benefit to the students, would like to continue if possible
- Technology 1:1- currently 3-6 are 1:1, moving lower grades to 1:1
  - Suggestion to observe how the technology is currently used to determine needs
- Purchase Software; iReady, Imagine Math
- STEAM grant for each grade level to be used towards grade specific goals to meet student needs
  - Engineering is Elementary is a standard across grade levels 1-6
- Differentiation training- strengthen tier 1 and tier 2 instruction to meet the needs of all learners
  - More rigorous
  - Real world
  - Move ALL students, not just the lower performing students
  - Book study: Moving Beyond Quadrant A

A discussion to improve communication between teachers and parents took place.

- § Canvas
- § Import student grades in a timely manner

Conferences should not be the time that the parent is hearing that a student is struggling. This is a time for students to share what they are learning with parents.

Back to School Night Discussion

- Suggested to hold it prior to school starting (students would be familiar with the school, where their classroom is, meet the teacher)
- Use the PTA opening meeting to teach parents about expectations for technology etc., We can use the time in a productive way while there is a captive audience

Other ideas from the council:

- SEM- parents would like more feedback about what the students are learning
- Volunteers- How can we use parent volunteers more effectively?

Nicole has additional ideas she will prepare and get to Mrs. Paras.
