Week #1 & Week # 2 J3-J4 M1-M2

Leadership & Public Speaking

This series of workshops gives the students the skills to succeed in presenting themselves with assurance, asserting and arguing their point effectively, finding solutions quickly, taking initiative, understanding how to negotiate and delegate harmoniously. This class is structured around fun projects and games that encourage the exploration of inquiry, initiative, adaptability, critical thinking, negotiation, delegation and proper presentation through improvisation games, engineering projects, lego activities, physical activities, science experiments and more. While cultivating the skills, students build strong, successful relationships. They learn how to find their voice and showcase themselves and their work in the best way. The following are the components of the program including “Self Defense” instruction with a professional expert.

LEADERSHIP Students will learn and apply valuable leadership skills like Negotiation, Delegation, Initiative, Adaptability, Conflict Resolution, Communication, Time Management and more.

PUBLIC SPEAKING & DEBATE They students will learn how to address and present their views in a persuasive, compelling way while learning how to address and negate their opponent's argument. Debate aligns with Common Core reading, writing, and English Language Arts standards. It is an excellent way to build a child's confidence and teach them how to advocate for themselves.

MOCK TRIAL is a fun and exciting way for students to experience the Judicial process. They will utilize age-appropriate resources provided by the American Bar Association. Mock Trial combines the energy and excitement of debate with the drama of the Theater. Students will take part in a simulated trial (criminal or civil) and play the roles of Attorney, Defendant, Plaintiff, Witness, Bailiff, Judge, and Jury. Student attorneys will learn how to craft and deliver opening and closing statements, examine, cross-examine and re-direct witnesses, present incriminating evidence and more.

AMANDA SAWYER

The instructor of this class is Ms. Amanda Sawyer (Founder & Director of “Dodimus Potestatem”). She has taught students at the Lemman Preparatory, Ecole International, the Hudson School, Packer Collegiate, Dalton, St. Bernards and Horace Mann. Her program is focused on social skills, public speaking and presentation. It was developed in conjunction with The University of Cambridge. Their findings showed that after several months of activities and exercise in communication, delegation and presentation the children's literacy, arithmetic and reasoning scores improved significantly.
