# MEMORIAL HIGH SCHOOL

Memorial High School has something for every student to get involved; we are large enough for diverse opportunities yet small enough for all students to be included. Students can build academic rigor through our multiple Advanced Placement course offerings or through our Early College High School program called Earn a Degree Graduate Early (EDGE).

Student voice is a critical piece of our culture and climate and has led to the implementation of student-selected Activity Periods that range from cooking, yoga, anime, Sci-fi movies, knitting, board games, and even Medieval Fight Club! We offer a variety of performing arts classes including instrumental, vocal, and visual arts classes. Memorial's JROTC Program and Student Council courses are model programs for students who wish to develop leadership and service skills.

In addition, our award-winning engineering magnet program offers challenging curriculum in engineering principles, design and development. Our robotics team, the "Circuit Chargers," compete for world titles every year and are among the most decorated robotics teams in the United States. At Memorial, our students are valued, parents are welcomed, and the community is invested.

## MEMORIAL HIGH SCHOOL STUDENTS CAN:

- Thrive in a student centered-environment which focuses on academic achievement, student involvement, and lifelong relationships;
- Participate in a wide range of specialized programs to prepare students for college and career readiness; and
- Experience diverse learning opportunities that emphasize leadership skills, critical thinking, and can be tailored to individual interests and talents.

“It wasn’t only the world class teachers, administrators, coaches and counselors that made my experience at Memorial special, it was the community ethos of hard work, perseverance and mental toughness that prepared me to face the challenges outside of the classroom! I am forever grateful for Memorial and the people that make it such a special place for laying the foundation of academic achievement and ultimately placing me on the path to success.”

— Memorial High School alumnus

## THE TULSA ENGINEERING ACADEMY AT MEMORIAL (TEAM)

is a college-preparatory magnet program for students who are interested in pursuing careers in science, technology, engineering or mathematics (STEM). This program provides a rigorous education to prepare students for life in the twenty-first century. Our dedicated instructors and mentors have experience in aerospace technology, robotics and computer-aided design and have worked to align TEAM’s rigorous curriculum with university engineering programs. TEAM students graduate prepared to take the next step - enrolling in a university level STEM program - with confidence in the field they have chosen and with the skills that will ensure their success.

## EARLY COLLEGE HIGH SCHOOL

Our Early College High School program called Earn a Degree Graduate Early (EDGE) allows participating students to graduate with both a high school diploma and an associate’s degree from Tulsa Community College at the end of their high school career. This rigorous, cohort-based program is free to participating students and only offered at two high schools across Tulsa Public Schools.

# PROGRAM HIGHLIGHTS

## EXTRA-CURRICULAR ACTIVITIES

ACADEMIC BOWL  
ART  
BUSINESS PROFESSIONALS OF AMERICA  
CHORUS

Thank you Tulsa for investing in every child and every school! Because of you, every child in our district will see, feel, and experience the benefits of the 2021 Bond package. Tulsans have made a five-year \$414 million investment in safe and accessible schools; state-of-the-art educational technology; sustainable student transportation; and rigorous, engaging, and culturally sustaining learning experiences that prepare students for success in college and careers.

## At Memorial High School, the 2021 Bond for Tulsa Public Schools includes:

- » LaFortune Stadium turf replacement and waterproofing, replacement of the school’s tennis court, and pool refresh work.
- » Redesigning the cafeteria into a flexible, comfortable, multi-use space for students, teachers, and support professionals;
- » Upgrades to the auditorium lighting and sound system and new stage curtains;
- » Remodels for the school’s science labs and investments in STEM equipment;
- » Security enhancements at the school’s main entrance;
- » ADA-accessibility improvements in school restrooms and at building exits;
- » Parking lot resurfacing and improvements to exterior lighting; and
- » Repairing and upgrading the HVAC system federally funded by the CARES Act.
