WILL ROGERS COLLEGE JUNIOR HIGH SCHOOL

Since 2011, Rogers has been the district’s flagship early college academy, and our school focuses on not only on helping students get into college, but also preparing them to successfully graduate with a degree. All students are enrolled in College Summit, a specialized class focused on helping students cultivate the self-regulatory skills necessary for college and career success.

In addition to academics, Rogers provides students with a wide-range of performing arts opportunities, including instrumental, vocal, and visual arts classes. Students at Rogers also have the opportunity to participate in a variety of co-curricular classes such as Student Council, ROTC, and speech and debate. Our 21st Century Grant partner provides our students with numerous after-school activities at no cost to their families.

PRINCIPAL NICOLETTE DENNIS
