

Immunization Requirements Kindergarten Entry

To attend kindergarten, a student *must have written proof* of receiving the following immunizations:

- **5 DTaP/DT**
- **4 Polio*** (3 doses, if 3rd dose was given on/after the 4th birthday)
- **2 Measles, Mumps, Rubella**
- **3 Hepatitis B**
- **2 Hepatitis A**
- **1 Varicella (chickenpox)** – history of disease is acceptable; a parent must sign the verification statement on the school immunization record.

* The 4th dose of polio vaccine administered ON or AFTER August 7, 2009 must be given at a minimum age of 4 years AND a minimum interval of 6 months between doses 3 and 4. The 4th dose of polio administered PRIOR to August 7, 2009 will fall under the previous recommendation with a minimum interval of 4 weeks between doses 3 and 4.

A child may be allowed to attend school “conditionally” if at least one dose of each *required* immunization has been completed and the child is currently on schedule to receive the remaining immunizations. The remaining immunizations must be completed on schedule for the child to remain in attendance.

An appropriate Utah Department of Health Exemption form must be completed for children who claim exemption to immunization for medical, religious, or personal reasons.

For questions regarding your child’s immunization status, contact your child’s health care provider, your local health department or the Immunization Hotline at 1-800-275-065.
