

National Academic League

National Academic League Description (Description taken from the district's page): National Academic League is an inter-school academic competition. Teams of students compete to demonstrate their knowledge of mathematics, science, English, and social studies. Games consist of four quarters, two of which (first and fourth) are based on questions answered by individual students. In the second quarter, a group of students from each team race against each other to solve a problem or answer a question. The third quarter assesses the knowledge, logic, and communication skills of students as they make presentations on a topic assigned at the beginning of the game.

Schedule

Practices will be twice a week depending on when other activities/sports are (TBD).

- If you are in the class, you won't have to go to most of the other practices.

Games on Tuesdays 3 p.m. to 4:30 p.m. (sometimes until five for away games)

Season goes from October to March

Fees

\$35

Contract

Students will fill out a contract once they make the team.
