**Which SCIENCE Class Should I Take in 2020-21?**

**Directions:** Read this chart vertically, not horizontally; any class in one column (example, 9th) can precede any class in the next column (example, 10th). However, some pathways make more sense than others due to prerequisites and suggested math levels.

<table>

</tbody>
</table>

**IB Chemistry - Standard Level (SL)**
- Prerequisite: Chemistry
- Best if enrolled in Alg II/Trig or higher

**IB Design & Technology (SL)**
- Counts as Group 4 or Sixth Subject for IB Diploma

**IB Chemistry - Standard Level (SL)**
- Prerequisite: Chemistry
- Best if enrolled in Alg II/Trig or higher

**IB Design & Technology (SL)**
- Counts as Group 4 or Sixth Subject for IB Diploma

**IB Biology - Higher Level HL Years 1 & 2**
- Prerequisites: Biology and Chemistry
- IB Bio 1 is a prerequisite for IB Bio 2

**IB Physics HL Years 1 & 2**
- Prerequisite: Chemistry; Best if enrolled in Alg II/Trig or higher
- IB Phys 1 is a prerequisite for IB Phys 2

**IB Design & Technology (HL)**
- Prerequisite: Concurrent enrollment in Alg 2 or higher
- IBDT SL is a prerequisite for IBDT HL
