Albany Area Schools Strategic Plan
2020-2025

Albany Area Schools Strategic Plan expires this spring. We are looking forward to beginning the process of developing a new five-year plan geared towards continuous improvement. The strategic plan is a dynamic, active document that guides decision making at the school and district level.

We will be working with the Big River Group of St. Cloud to assist us with evaluating our current plan and securing valuable input to begin developing the new plan.

A main priority of our strategic plan development is for all stakeholders to contribute to its development. In the end, we want everyone in the district to understand the strategic plan so we can work together to help us achieve our vision of the next five years.

Step 1 involves completing a confidential survey that contains just two questions. The Big River Group will assemble the trends in the survey results and share results with the school board and administration. The survey closes March 6.

Please use the following link to access the Albany Area Schools Community Survey:

For interested stakeholders, **Step 2** involves attending a community input session on Tuesday, March 31, at the secondary school. Dinner will be served at 5:00 pm, with the input session to follow at 6:00 pm. Child care will be provided. Please RSVP with Emily Simon at esimon@district745.org or 320-845-5055.

Thank you in advance for being a part of our school district's strategic planning process. We value your input!
