

February 20, 2020

Dear Barnhart Families,

It's hard to believe that we're already nearing the end of February, but with more daylight hours and our days becoming longer, we know that Summer@Barnhart is coming soon!

Over the past year our team has been evaluating our summer program and looking for ways to better serve our students. As a result, we welcome you to Summer@Barnhart, which includes two fun and engaging programs geared toward our *kindergarten through fifth grade* students! The first, Camp@Barnhart, offers a total of four weeks of theme-based camp experiences - two weeks in June and two weeks in August. The second program, Classes@Barnhart, offers a four week enrichment program in July which includes up to five classes per day. Our Bobcat Adventures morning and afternoon programs will continue to offer activities and child care during these extended hours.

Also new this year, we are offering a specially designed program for our *6th-8th grade* students! Helping our students develop into the leaders and difference-makers we know they are destined to become requires intentional guidance and support on our part as well. So, we have created a Counselor-In-Training (CIT) program that will operate in both the Camp@Barnhart and Classes@Barnhart programs. The CIT program balances community service and leadership training opportunities to help our students grow in both the camp and classroom environments. Students will learn to create and lead activities for the younger students in our summer programs, developing the important skills of leadership, communications, organization, planning, and relationship-building.

The chart below outlines our program opportunities, dates, and pricing. For more specific information, class descriptions, and schedules, please visit our website! www.barnhartschool.org/summer. Registration opens on Thursday, February 20th!

| Camp@Barnhart Weeklong theme camp experience - including Friday Fun Field Trips! | Dates & Times | Cost per week |
