

**MOORE NORMAN TECHNOLOGY CENTER  
BOARD OF EDUCATION POLICY**

*Policy No. # 265*

Adopted: December 18, 2014  
Revised: January 21, 2016;  
January 1, 2018; February 11, 2020

**HAZCOM PROGRAM**

The board of education values the health and safety of its employees and students, and the district will comply with all state and federal laws regarding the presence and use of hazardous chemicals at school. The board expects all individuals to use non-hazardous materials at school when feasible, to follow established safety procedures at all times, and to promptly report any suspected violations of this commitment to the district's Director of Facilities.

The district's Director of Facilities will develop, implement and maintain a comprehensive HazCom Program for use throughout the district. All district employees are required to participate in appropriate training.
