Success = Capability + Effort + Resilience...

Lance King returns to MIS

20 November
MONDAY
JUNIOR SCHOOL

On Monday, 20 November, the MIS Foundation has sponsored visiting author Lance King to present a free seminar to parents from 16:15 to 17:45.

Lance King is the creator of the *Art of Learning* programme delivered to over 250,000 students in 32 countries and is the designer of the new IB ATL programme currently being implemented in over 3,000 schools in 150 countries.

His seminar, *Bringing Up Digital Natives*, discusses the following topic: children are a unique group in the history of the world – the first generation growing up immersed in the internet from birth. Digital natives have their own challenges which parents

often don't understand or know how to deal with. How important are reading and writing in the digital age – and what are the best ways to develop them both? What are the best ways for your children to develop critical and creative thinking and become good problem solvers? What are the different challenges for bringing up boys and girls – should they be treated the same? This seminar will show parents how to bring up children who can cope. Children who are courageous, resilient, and actively engaged with both the real world and the digital world.

We sincerely thank the MIS Foundation for supporting this event
