

Cookie Policy

Our website uses cookies to distinguish you from other users of our website. This helps us to provide you with a good experience when you browse our website and also allows us to improve it. By continuing to browse the site, you are agreeing to our use of cookies.

A cookie is a small file of letters and numbers that we store on your browser or the hard drive of your computer if you agree. Cookies contain information that is transferred to your computer's hard drive.

We use the following cookies:

- Strictly necessary cookies. These are cookies that are required for the operation of our website. They include, for example, cookies that enable you to log into secure areas of our website or make use of online booking forms;
- Google Analytics, a web analytics service provided by Google, Inc. These cookies allow us to recognise and count the number of visitors and to see how visitors move around our website when they are using it. This helps us to improve the way our website works, for example, by ensuring that users are finding what they are looking for easily;
- Functionality cookies. These are used to recognise you when you return to our website. This enables us to personalise our content for you and remember your preferences (for example, the Accessibility Options cookie helps recognise your desired viewing settings); and
- Third-party cookies (for example, Twitter and Vimeo). Some third-party software utilises its own cookies over which we have little or no control. You can find out about their use of cookies by visiting the third party's website. As our Twitter feed is embedded within our website, this may store cookies on your device when using this feature.

You may block cookies by activating the setting on your browser that allows you to refuse the setting of all or some cookies. However, if you use your browser settings to block all cookies (including essential cookies) you may not be able to access all or parts of our site.
