Required Test Administrator Training (Online Modules)
Before you can get started, you must complete this online training. You can complete this training on your own (self-guided).
- New test administrators must successfully complete four modules with a passing score on each module's post-test before administering DLM alternate assessments. Total training time is estimated at approximately two and a half hours.
- Returning test administrators must successfully complete one module with a passing score on the post-test before administering student assessments. Training time is estimated at approximately one hour. If the module is not successfully completed on the first attempt, additional training will be required. The additional training may take

an additional 30 minutes to two and a half hours, depending on the areas in which the test administrator was not successful on the first attempt.
