

A NOTE FROM THE HIGH SCHOOL OFFICE

Dear parents,

Thank you for your support as we finish week #3 of online learning. While this is not the ideal situation for our community, I am very proud of how everyone has pulled together to ensure that learning continues for our our students. In particular, thank you to all of you, as parents, that have supported and encouraged your student during their online learning journey.

Here are a couple of brief announcements:

- Ms Martin-Bauer continues to remain in touch with colleagues in the region and the IB Organization regarding IB exams for the class of 2020. As of now, we plan to administer IB exams, as scheduled, in May.
- As some of you may have heard, the SAT was cancelled on our site in March. At this point, we plan to offer the May exam to students as scheduled.
- Please encourage your student to keep a schedule and remain focused on their studies. It is equally important that they take time to stay physically active, so kindly encourage them to get some form of exercise daily. Additionally, encourage them to take "screen breaks" and refrain from using their computer, phone, tv, etc all day.

Thanks again for your support and encouragement during this time. Please feel free to reach out if you have any questions/concerns.

Sincerely,

Kerry
High School Principal
