The Cardinal Gibbons administrative team is actively monitoring and addressing the potential risks of a coronavirus spreading within our community.

Please be advised that all Cardinal Gibbons facilities are cleaned daily and that hand sanitizer, tissues and disinfectant wipes are available throughout campus to help combat the spread of germs.

**As part of our preventative measures, we ask that students or parents who begin experiencing the symptoms of fever, cough and shortness of breath, please refrain from coming to campus, as the CDC reports that the best way to prevent infection is to avoid exposure to the virus.**

The CDC also recommends that all individuals take the following precautions to avoid the spread of respiratory illness:

- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Avoid touching your eyes, nose and mouth.
- Clean and disinfect frequently touched objects and surfaces.
- Wash your hands frequently.
