POSTSECONDARY CONCURRENT ENROLLMENT

Postsecondary Concurrent Enrollment Application Procedures

A student wishing to apply to take one or more courses under the District's Concurrent Enrollment policy must first meet with the school principal or counselor to discuss whether such enrollment would be in the best interest of the student's educational career and pertain to the academic and postsecondary goals in the student's Individual Career & Academic Plan (ICAP).

After a student meets with the school principal or counselor, the student may submit the required paperwork (school-appropriate Registration Form, BVSD Counselor Form, BVSD Transcript, BVSD Course Schedule) and any appropriate, optional paperwork (BVSD Addendum, BVSD Request for Additional Financial Assistance) to the Superintendent or designee at least 60 days prior to the anticipated date of postsecondary enrollment. The deadline for fall semester applications is June 15th and the deadline for spring semester applications is November 15th. The Superintendent or designee will then determine the student's eligibility for tuition assistance on a course by course basis.
