## Sick students

Dear Parents, With the flu season upon us and the sicknesses happening around the world, please remember that if your child is sick, it is best to keep him/her home. If you send your child to school sick, we have 476 students plus adults in the building every day that could potentially get sick as well. In addition, we have students with compromised immune systems that are more susceptible to being infected than other students. This is a tough time of year, especially with the recent outbreak and the long-lasting flu virus that happens each year. We appreciate your attention to this matter. Thank you for all you do. Please refer to the information below.

### HOW SICK IS TOO SICK FOR SCHOOL?

FLU SEASON IS HERE, WHICH MEANS GERMS ARE SNEEZING THEIR WAY INTO SCHOOLS

#### Keep me home:

- Temperature higher than 100 degrees
- Sore throat, cold and persistent cough
- Vomiting (more than two times in 24 hours)
- Diarrhea
- Severe or long-lasting abdominal pain
  - Rash with fever
  - Strep throat
  - Head lice before first treatment
    - Illness prevents me from participating comfortably in activities
    - Illness results in a greater need for care than school staff can provide.

#### Send me to school:

- Runny nose or occasional cough, but no other symptoms
- No fever, without fever-reducing medicine in 24 hours
- Sore throat with no other symptoms
- Strep throat after 12 hours of treatment
