Parameters for Student Transfers – The School Board authorizes the superintendent to design and implement regulations and procedures to allow District 196 residents and non-residents to request in which District 196 school or center-based special education program their student will be enrolled. See section 4, Transfer Options.
  - 3.1 Applications for transfer from one District 196 school to another District 196 school (intradistrict transfer) and from outside District 196 to a District 196 school (interdistrict transfer) will be considered individually based on the transfer options in section 4, and related regulations and procedures.
  - 3.2 Unless specifically noted otherwise, all transferring students shall be assigned to schools that have available space based on building capacity plus five percent for district residents and building capacity for nonresidents as determined by the directors of elementary education (for grades k-5), secondary education (for grades 6-12) and special education (who will determine the capacity of center-based special education programs based on laws and district policies).
  - 3.3 When determining space available for interdistrict and intradistrict student transfers, the directors of elementary education (grades k-5), secondary education (grades 6-12) and special education (center-based special education programs) have the authority to determine, waive, increase or reduce the capacity figures of a school or program, as needed, on a case-by-case basis.
