

Play a board game

Go on a hike! Count objects you find.
(leaves, stones on a hike...)

Practice writing your numbers to 10. Be creative!
Write in shaving cream, flour, playdough, paint...

Make a favorite recipe with an adult.

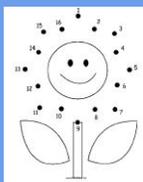

Play a card game
(memory, go fish with numbers)

Estimate...
How many objects (pennies, books,...) can you stack before the tower falls? Then count how high you were able to make the tower.

Complete a Dot-to-Dot

Play an online numbers game on abcya.com

Build a creation out of blocks or legos. What shapes do you see? Can you count how many blocks or bricks you used?

Pre-K Math Tic-Tac-Toe Activities Week 2

Build shapes with Math Learning Center's Pattern Block App (free) Or Build shapes using string, toothpicks, pencils, playdough

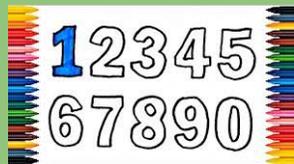

Grab & Count
grab a handful of objects (coins, cereal, beads). Sort them in piles of ten

Get out and Exercise!
Count your hops, skips and jumps! How many kicks, baskets or goals can you make in a row?

Practice writing your numbers to 20. Be creative!
(Use paint, shaving cream, markers, sand...)

Create a picture using 1-10 objects

Play an online numbers game on abcya.com

Play Memory (Use games at home or use 2 of each number card (1-10) out of a deck of cards. OR Play Hide the Beans with a family member. (Place 1-5 small objects (pennies, cereal...) under a cup without your partner looking. Then show them what is under the cup for 3 seconds. Can your partner figure out how many objects are hiding? Keep taking turns changing the number under the cup each time.)

Sort your toys!
Pick a toy in your house with many pieces (blocks, legos, duplo, dolls, cars...)
Can you sort them by size?
Color? number?
