# LA REINA

Confident • Capable • Compassionate

March 6, 2020

### La Reina Coronavirus Update:

La Reina remains vigilant as to the possible spread of coronavirus/2019-nCoV. Please review the information from the [Archdiocese of Los Angeles](#) and the [California Department of Public Health link](#) that we sent out last week.

There is currently no need to alter normal school schedules and activities. At this time, the California Department of Public Health is not recommending the cancellation of public events. According to the California Department of Public Health there is no current evidence of sustained person-to-person transmission of the virus in the United States.

For more information and to read more about what steps La Reina is taking to keep classrooms germ free, please [CLICK HERE](#).

Our goal is to ensure the safest learning environments for our students and staff. In an effort to plan for the continuity of education for our students, La Reina will be training faculty and staff on distance educational platforms and technique. Faculty, staff and students are encouraged to take their laptop and/or Ipad home on a daily basis for use in the event a school closure should become necessary.

La Reina administration is actively and continually monitoring the situation and remains in close communication with the Ventura County Office of Education and California Department of Public Health to stay informed of important facts and guidelines; relying on their expertise for any possible school closures. We will continue to share updates with the La Reina community as they become available.

Sincerely,

Maggie Marschner, Principal, Tony Guevara, President
