

Community Schools

March 13, 2020

GLCS Families,

Last night Governor Gretchen Whitmer announced that in order to slow the spread of Novel Coronavirus (COVID-19) in Michigan, she is ordering the closure of all PreK-12 school buildings to students starting Monday, March 16th for three weeks. All Gull Lake Community school buildings, including Added Advantage Child Care, will be closed during this period of time.

We know that questions are circulating for our students, staff, families, and community at this time. It is important that we remain positive with factual information and show a high level of compassion, care, empathy, and understanding. Our team will work diligently to communicate more logistical details as they become available with the guidance of the Michigan Department of Education, local, and state health officials.

The district will use School Messenger and our district website to communicate further updates.

Sincerely,

Raphael Rittenhouse
Superintendent
