The School has received some questions regarding coronavirus, and what, if any, actions should be taken in the UK to guard against it. Please see the link below to find the latest Government advice about the outbreak, and what this means for members of the public in the UK.

That latest statement is as follows:

“Based on the World Health Organization’s declaration that this is a public health emergency of international concern, the

UK Chief Medical Officers have raised the risk to the public from low to moderate. This permits the government to plan for all

eventualities. The risk to individuals in the UK has not changed at this stage.”
