

March 13, 2020

Dear Families,

As we move into an extended leave from the classroom, the first grade team wanted to provide you with some optional activities that students will be able to engage in at home.

To help maintain your child's skills that they've worked so hard to acquire, please consider the following activities:

**Reading:** We strongly suggest students spend between 15 to 30 minutes a day reading.

**Writing:** We strongly suggest students will write in their journals for 15 to 30 minutes a day. They can write a story or even about their daily activities.

**Math:** We strongly suggest students spend up to 30 minutes a day practicing math skills and concepts.

Madison Public Schools has created a comprehensive resource with additional ideas, suggestions, and tools for our grade level. You will be able to access this through the district's website.

Thank you for your support,

The First Grade Team
