

# PUTNAM CITY SCHOOLS

March 13, 2020

During this COVID-19 outbreak, the safety of the staff and students of Putnam City Schools remains our top priority. We have been working closely with, and we will continue to take all directives from, the Center for Disease Control and the Health Department.

As we begin Spring Break, we will continue our regular sanitation of classrooms and buses over the break. Specific details about regular sanitation can be found on the Putnam City COVID-19 web page. In addition to regularly scheduled sanitation, we will also disinfect every school site with our electrostatic ionizing technology. This technology provides an electrical charge to solutions, allowing them to wrap conductive surfaces. It reaches underneath, shadowed, and vertical surfaces. This is cutting-edge disinfection technology, and it will be utilized in each room at each school site over the break.

Any potential closing updates will be delivered in the same manner that inclement weather closings are delivered. Should there be any closing updates, it will be communicated through School Messenger, traditional media, social media, and the Putnam City Schools web page. We are committed to communicating any other updates and information on our web page and on Putnam City Schools social media.
