INTERNET ACCESS FOR DISTANCE LEARNING

The Troy School District is planning distance learning opportunities for our students during the closure of all schools. We are asking our families and students to assist us by assessing your household's ability to access online content.

OTHER RESOURCES:

Oakland Schools is coordinating mobile emergency food pantries for families in our community. As soon as we receive details on locations and times, I will pass them along. For those in immediate need of non-perishable food, please email kbirmingham@troy.k12.mi.us and we will help to facilitate.

The county has established the Oakland County Help Hotline to address the needs of residents who may need food or housing assistance during this time. That number – 248-858-1000—will be staffed from 8am-8pm.

Finally, we have received many generous offers from our own families to assist in helping one another through this uncertain time. We are working to connect people with opportunities and anticipate having more information and additional resources to share next week. On a personal note, this is what makes Troy such a great place to live and learn. We never fail to come together as a community, truly embracing what it means to be ONE Troy.
