

## **Second Grade Remote Learning Plan: 3/16-3/20**

**Reading:** Students should read for 20-30 minutes each day and answer one of the attached questions from the reading log on binder paper.

**Math:** Do daily math practice in current concept areas of 3 digit addition and subtraction, measuring by feet, inches and yards (if you have access to a ruler,) skip counting patterns (counting by 3's, 4's, etc,) and place value into the 1000's. Make up a couple of problems for your students to work on or have them come up with their own problems. Math work does not need to be turned into us.

**Spelling:** Complete one of the attached spelling jobs for the following words each day:

1. turned
2. crashed
3. rested
4. landed
5. planted
6. added

**Writing:** Write a personal narrative of your choice, with a clear beginning, middle and ending. (A personal narrative is a true story about their life.)

**Lexia:** Attached are the instructions for signing onto Lexia. You may have your child log onto Lexia each day or some days if you wish.

\*A homework packet was sent home, they can complete that packet as additional work/support.
