About Me

Hello! I am the occupational therapist at Kohl Elementary. I grew up in Minnesota and come from a family of educators, including a grandmother who was a kindergarten teacher and a mother who was a speech-language pathologist. I believe that all students have the ability to participate productively and be included in the regular education experience. I work with the team at Kohl to achieve that goal. When not working, I spend free time with my two young boys and husband, preferably while being active in the outdoors.

Education

- Bachelor of Science from University of Wisconsin-Madison
- Master of Science from Colorado State University
- Educational Specialist from University of Northern Colorado
