

We are monitoring the development of the Coronavirus outbreak and associated risk carefully, following guidance from the Foreign and Commonwealth Office (FCO) and Public Health England (PHE), as well as from the Boarding Schools' Association (BSA). We are mindful that the close quarters in which the pupils live within school, both boarders and day pupils, require us to take measures above and beyond what might be considered appropriate in the community at large. Our core responsibility is to heed this advice in order to take every reasonable precaution to protect all our pupils and staff.

In order to reduce the risk of Coronavirus coming into school, it is important that we review contact we have with external carriers.

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- new continuous cough and/or
- high temperature over 37.8

Please do not come into the School campus if you or your family have any of the symptoms described.

For most people, coronavirus (COVID-19) will be a mild infection.

Government guidelines have removed the reference to category 1 and 2 countries as the general advice for all replaces this.
