PLANT AND SOIL SCIENCE

ABOUT

Students will develop knowledge and skills in a wide range of scientific principles, such as genetics, disease, pests, and management practices. The scientific processes of observation, measurement, hypothesizing, data gathering, interpretation, analysis, and application are stressed. Career opportunities and educational preparation are examined. Learning activities are varied, with classroom, laboratory, and field experiences emphasized.

CAREER PATHWAYS

Arborist
Agronomist
Microbiologist

REQUIREMENTS

Year-long course for
Sophomores, Juniors and
Seniors.

LOCATIONS

All high school students
have access to take
Plant and Soil Science
