

Remote Student Learning

Resources for Free/Reduced Internet

Orange USD is committed to continuously supporting student learning during your child's school closure through a remote learning environment. On Friday, March 13th, 2020, many students were able to leave school with a digital device checked out to them.

Teachers will provide remote learning opportunities for students, so it is essential that all students have access to a device connected to the internet. Orange USD is sharing this list of internet options, and we hope that you can identify an appropriate solution for your family to connect to online learning.

The following organizations will work directly with families to provide low-cost and no-cost solutions for internet access. Orange USD is not affiliated with these groups and only provides the references below for informational purposes.
