CONSTRUCTION TRADES FOUNDATION

ABOUT

A course that generally prepares individuals in the following areas: basic safety, introduction to blueprint reading, introduction to power tools, introduction to hand tools, and introduction to construction math. The course also includes an industry overview, what to expect on the job and specific career opportunities. Designed to allow for replica house building on a 1/4" to 1" scale. The course is based on the current National Center for Construction Education and Research task list.
