

G

1) Read through a book together.

- a. While reading, ask questions such as “Where’s the dog?”, “Find the car”. This will work on vocabulary words and attending to a story.

2) Sight Words

- a. He has been working on 10 sight words: pizza, juice, cookies, pancake, doritos, french fries, water, hamburger, waffle, chips. Write each of these words on separate notecards. Lay 4 out at a time and say “find pancake” and see if he can identify the word. You can also have him find it in his device.

3) Matching upper and lowercase letters

- a. He is working on letters A-M right now. You can write each letter on a small piece of paper and have him practice matching them. You can also practice by saying “touch A”. There is a keyboard on his device. If you go to the keyboard, you could practice there as well.

4) Counting

- a. He is able to count up to 10 when you show him just a number. You can have some fun with this by having him count out snack items. For example, if he wants cookies for snack, you can write down the number 5, and he has to count out 5 cookies.

5) One step directives

- a. You can practice this throughout the day. For example, if he wants juice, you can tell him “get cup”. If you’re going to go outside for a walk, tell him, “get coat”.

6) Navigating his device

- a. To practice using his device, you can tell him to find a specific word. You can use art words, animals, food words, utensils, etc. If you look at the home page, there’s a button on the right hand side labeled “groups”. You should be able to find all the items once you click on groups.

7) Recall

- a. Have him use his device to tell you what he ate for breakfast, snack, lunch, etc. It doesn’t have to be immediately following that mealtime. For example, at 2:00pm you can ask him what he ate for breakfast and see if he remembers.

8) Turn Taking

- a. Family games – when his turn is over, someone in the family can say “My turn!” and he needs to pass the materials/items/game to that person

9) Self Help

- a. Continue to work on brushing teeth, washing face, putting on deodorant, washing hands

10) Exercises

- a. He has been working on sit-ups. Other exercises we do include: jumps, toe touches, marching in place, arm circles, and wall push-ups.
