Non-screen activities you can do at home

What can you do when there's no school and you're stuck at home? Here are 25 fun ideas to choose from.

25 ideas!

1 How many different words can you make from the letters in this sentence, below? Grab a pencil and paper and write a list!

'Learning from home is fun'

2 Thank a community hero. Think of someone that helps you in some way and write a short letter to thank them.

Thanks!

6 Hold a photo session. Use a camera or a mobile phone to take some snaps. What will you photograph? Your pets or toys perhaps?

7 Build a reading den. Find somewhere cosy, snuggle up and read your favourite book!

11 Do something kind for someone. Can you give them a compliment, make them something or help them with a task?

12 Can you create a story bag? Find a bag and collect items to go in it that relate to a well known story. If you can't find an item, you could draw a picture to include

16 Keep moving! Make up a dance routine to your favourite song.

21 Junk modelling! Collect and recycle materials such as yoghurt pots, toilet rolls and boxes and see what you can create with them

17 Write a play script. Can you act it out to other people?

22 Draw a map of your local area and highlight interesting landmarks

3 Get building! You could build a Lego model, a tower of playing cards or something else!

8 Use an old sock to create a puppet. Can you put on a puppet show for someone?

13 List making! Write a list of things that make you happy, things you're grateful for or things you are good at.

18 Read out loud to someone. Remember to read with expression.

23 Write a postcard to your teacher. Can you tell them what you like most about their class?

4 Can you create your own secret code? You could use letters, numbers, pictures or something else! Can you get someone else to try and crack it?

9 Make a list of all the electrical items in each room of your home. Can you come up with any ideas to use less electricity?

14 Design and make an obstacle course at home or in the garden. How fast can you complete it?

19 Write a song or rap about your favourite subject.

24 Draw a view. Look out of your window and draw what you see.

5 Start a nature diary. Look out of the window each day and keep note of what you see. Birds, flowers, changes in the weather, what else?

10 Design and make a homemade board game and play it with your family.

15 Can you invent something new? Perhaps a gadget or something to help people? Draw a picture or write a description.

20 Get sketching! Find a photograph or picture of a person, place or object and sketch it

25 Get reading! What would you most like to learn about? Can you find out more about it in books? Can you find a new hobby?

STAMFORD, Conn. – In the coming weeks, many Americans will be affected either directly or indirectly by COVID-19 and Charter is focused on serving and supporting our 29 million customers. Americans rely on high speed broadband in nearly every aspect of their lives and Charter is committed to ensuring our customers maintain reliable access to the online resources and information they want and need. To ease the strain in this challenging time, beginning Monday, March 16, Charter commits to the following for 60 days:

- Charter will offer free Spectrum broadband and Wi-Fi access for 60 days to households with K-12 and/or college students who do not already have a Spectrum broadband subscription and at any service level up to 100 Mbps. To enroll call 1-844-488-8395. Installation fees will be waived for new student households.
- Charter will partner with school districts to ensure local communities are aware of these tools to help students learn remotely. Charter will continue to offer Spectrum Internet Assist, high speed broadband program to eligible low-income households delivering speeds of 30 Mbps.
- Charter will open its Wi-Fi hotspots across our footprint for public use.
- Spectrum does not have data caps or hidden fees.

As the country works collaboratively to contain this pandemic, broadband internet access will be increasingly essential to ensuring that people across the country are able to learn and work remotely, that businesses can continue to serve customers, and that Americans stay connected and engaged with family and friends.

Charter's advanced communications network will ensure our more than 29 million customers — including government offices, first responders, health care facilities, and businesses — across 41 states maintain the connectivity they rely on. The network is built to sustain maximum capacity during peak usage which is typically in the evenings, so a surge during the day would be well within the network's capabilities to manage. Charter will continue to closely monitor this dynamic situation, and is well-prepared to continue delivering reliable connectivity. Charter has extensive

Dear Educator,

In light of the COVID-19 outbreak, we recognize that many schools are moving to a virtual learning option. Your health and safety, along with the safety of your educators and families, are the most important things during these difficult times. Learning can continue outside of the classroom walls, and we want to make sure students still have the opportunity to fill their hearts with the joy of reading.

Starting today, please register for a FREE subscription to Raz-Kids and/or Headsprout, valid through the end of the school year.*

Please forward to your families, or any educator who needs resources, to help learning continue while out of the physical classroom.

- Raz-Kids is a digital resource that provides a library of differentiated books students can use to practice reading wherever they are (Internet connection required).
- Headsprout is an online K-5 reading program that adapts to the needs of the individual student. It is self-paced, which makes it ideal for at-home practice.

Please visit the special resource page on our website for more information.

Wishing you health,

The Learning A-Z Team

* Free trial subscription provides 90 days of unlimited access to Raz-Kids and/or Headsprout.

Dear Families and Caregivers,

We know that missing school isn't easy for your kids—or for you. But we also know that there are simple ways to turn unexpected time at home into exciting opportunities for your students to learn, think, and grow.

That is why we've created Scholastic's Learn at Home website. This free resource provides your children with 20* days of exciting articles and stories, videos, and fun learning challenges. Children can complete them anytime, in any order. They can work on their own or together with you and your family.

Our active learning journeys are available on any device and will provide your child with up to three hours' worth of exciting learning experiences per day. They can go on virtual field trips, meet best-selling authors, or dig deep into a topic they love.

We hope that you and your children stay safe and healthy, and wish you the best of luck during this stressful time.

With best wishes from all of us at Scholastic,
