

6-8 Instructions for at-home activities

	6-8	Physical Science
P R A C T I C E	Choose 1 activity sheet every 2-3 days. Solve all the problems on your own and then check your answers. Rework any problems you missed and write down any questions you have.	See HS physical science
L A B S	Look through the Chemistry and Physics at-home labs and complete one each week. Work with someone from home and teach them some science!	See HS physical science
P R E P A R E	Every 2 days: Create a study guide for a past topic to help you when you return to school.	See HS physical science
