

# Kindergarten

03-20-2019

Mrs. Dickerson

Mrs. Geary

## Important Reminders:

### Books used for each class:

**Reading, Writing, and Literacy:** Blue Reader's Notebook and photocopied homework books for the current week. This coming week we will be on lesson 23. All books are numbered in the top right-hand corner by lesson. These books still need to be read and the log initialed nightly.

**Math:** Math in Focus Workbook (with the giraffe on the cover).

**Religion:** Call to Faith. We finished Family Life Thursday.

**Social Studies and Science:** There are not materials at home for these two subjects. We will scan and send any necessary worksheets at the beginning of the week for you to print and have ready.

Please have these items ready to go for each subject. Make sure to have a few sharpened pencils as well. For specific pages see notes section of the meeting scheduled for that day.

## Math

Next week in math we will work on addition stories, math patterns, subitizing, and writing to 100.

## Sight Words

### Sight words this week were:

said, was, then, good, ate, could.

**Next week:** she, all, over, when, her, some.

Add these words to your flashcards and practice daily!

## Religion

This week in Religion, we finished up Family Life with our last lesson on Helping Others. Next week, Mrs. McCabe will be showing families how to set up a prayer table, ask children how many boxes are colored on their Lenten Crosses, read Bible and Easter stories and so much more!

## Reading and Writing

Next week in Reading and Literacy, we will introduce our new popcorn words and our letter for the week, Ee. We are going to discuss sequence of events in a story. We will be reading informational text stories, our weekly decodable books and vocabulary reader for lesson 23.

In Writing, we will write sentences using proper nouns for days and months. We will also be using the kindergarten lined paper we scanned and sent home to write our popcorn words. Please have this paper printed and ready to go!

## Science/Social Studies

In Social Studies, we will be talking about why people work.

In Science, we will learn how to identify objects by naming their characteristics.
