

March 13, 2020

Dear La Reina Families,

As we navigate these challenging times, La Reina is committed to providing meaningful distance education to our students beginning on March 17 and continuing through April 8. Easter break remains April 9-19, and we anticipate resuming on-campus schooling on April 20. As previously announced, La Reina will be closed on Monday, March 16. As of March 17, we will implement recommended social-distancing plans to reduce the number of employees on campus with some employees working from home. La Reina faculty and staff will continue to be available via email.

Distance Learning is an educational experience for students that does not require the student to physically attend school. While Distance Learning will not fully replicate onsite learning, our teachers will deliver meaningful instruction that allows students to meet expected standards in an online environment.

Student success with a Distance Learning model is grounded in the partnership between La Reina and our families. While our teachers are carefully planning their lessons to support your daughter's academic success, we appreciate your support as partners in their education. During this time of uncertainty and challenge, a Distance Learning model provides us with unlimited opportunities to innovate and grow.

As you become familiar with the [Distance Learning Plan](#), please know that we warmly welcome your feedback and questions at website@lareina.com. We also encourage you to review the [Community Expectations for Successful Distance Learning](#). You will notice on the left-hand side of this page there are multiple links to important information, including previously sent communications. We look forward to creating and maintaining a dynamic *Frequently Asked Questions* section on this page.

We encourage students and parents to contact Tech Support through email at lrhstechnology@lareina.com or by phone at 805-495-6494 if you have technology-related questions.

La Reina remains a community where challenges are overcome, where teachers, administrators and students challenge each other to become the best versions of themselves and where together success is celebrated. We look forward to celebrating our success in navigating teaching and learning in this new way.

Thank you for your understanding, support and partnership as we work through this together. We look forward to being in touch again soon with the Distance Learning Plan for March 23 through April 8.

Wishing you peace and continued blessings,

Maggie Marschner
