

School Closure 'Ticking Over' Work for Monday 23 and Tuesday 24 March - Year 1

Thursday, 19 March 2020 at 16:30

Dear {Salutation}

The work below is for the last two days of term, next Monday and Tuesday, for those wishing to familiarise themselves with home learning.

Over the past few days this work has been sent home to absent boys; it has now been updated with one or two new activities to assist those who have already completed these tasks.

Thank you for your continued support in your son's education.

With kind regards

Mrs Latimer

Head of Pre Prep

In English we are; writing complete sentences which include the word 'because', using exclamation marks at the end of sentences writing in capital letters to show someone shouting and writing sentences using an imperative verb.

In Maths we are; using our number bond to ten knowledge, learning to bridge ten and add single digit of pence bridging 10p (playing shops). Please do whatever you can at home. Here are other some ideas; writing a story, playing board games, simple number sums, SumDog app, working out change from 10p, 20p etc. reading books.
