Tonbridge School's published pay gap headline figures are a 33.5% mean pay gap and a 42.6% median pay gap. These gaps are primarily due to the composition of staff in the School which operates as a boys' boarding school that directly employs its staff (rather than contracting-out important activities such as catering and cleaning, where many roles are part-time). Whilst the School actively encourages female and male applicants for all roles at the School, it has:

- A high proportion of males in the large teaching population, which is the highest paid group in the School.
- A high proportion of females in the large cleaning and catering populations, which are the lowest paid groups in the School; very high proportions of applicants for these roles are female.

If classroom teachers, cleaners and caterers are excluded from the Gender Pay Gap calculations, the mean pay gap for the other 344 staff at the School is 2.6% and the median pay gap is 6.1%.

The School has females in a variety of senior roles (30% of the highest paid employees in the School are female) and is continuing in its efforts across all functions to recruit, retain and promote females to higher paid roles, including in teaching.

The School remains committed to paying males and females who do the same job, or are at the same point on the relevant salary scale (where this exists), equally.
