Hello second grade students and parents!

Welcome to our Education Outreach Program. We look forward to working with you and making this transition as easy as possible. This first week will be focusing on ensuring that all students are able to log in to the necessary websites. While your student is in the site, allow them to explore the website or program to get comfortable using it. If you run into areas that are inaccessible, it is most likely because they have been hidden or blocked until teachers allow access for students. *I encourage you to save this document or print to have all **login information** in one spot. Log in information may not be on future lesson plans.*

If your child receives Special Education, Section 504, or Dyslexia services, services will be addressed weekly by your child's teacher via email.

If there are any questions, please feel free to email your child's teacher at:
