Dear Parents and Guardians: Your Child's Work Counts!

I hope everyone is doing well during this difficult time. In recent days many parents have been in a panic wondering if their child's efforts from home will count towards their official credit. I have confirmed with the state that our schools will have no issues with their work. We are coded with the state as virtual. Please rest assured the work your children are doing from home will be graded and counted.

I hope this message brings you some comfort. Please remember "Tough times don't last tough people due".

Madeline E. Black Ed.S.  
Superintendent  
WAY Charter Schools
